

Dartmouth

Faceted Glass Pendant Light, Clear or Amber

A faceted glass pendant in clear or amber, hung from a slim metal stem. In an entrance hall or above a desk, amber gives a honey-coloured light, while clear keeps the colour of the bulb.

SIZES AND FINISHES

Three shapes, each offered in clear or amber: the 17 cm stands 45 cm tall, the 23 cm 39 cm and the 30 cm 38 cm; the wider the diameter, the broader and lower the shape. The fourth option, the set of three, brings all three shapes together under a 32 cm round ceiling plate, about 46 cm across overall.

SPECIFICATIONS

Size

17 CM MODEL	Ø 17 cm, 45 cm high
23 CM MODEL	Ø 23 cm, 39 cm high

WIRING	to the mains; an electrician can do it if you prefer

IN THE BOX

Dartmouth, a single model or the set of three, as many E27 LED bulbs as there are glasses.

DIMENSIONS

AT HOME

IN DETAIL

The light

Every globe comes with its own E27 LED bulb, so the set of three arrives with three bulbs.

Materials

The globes are faceted glass, while the slim stems and the fixings are gold-finish metal.

Fitting

It connects to the ceiling point on 230 V mains; an electrician can do this for you if you prefer. Single pendants hang on a 100 cm suspension; the set of three drops up to 150 cm. IP20: dry rooms indoors.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
