

Malton

Natural Travertine LED Wall Light

Malton is a solid block of travertine to fix to the wall, in a dressing room, a small study or a cloakroom. Its light starts beneath the stone and shines down the wall.

SIZES AND FINISHES

Two lengths, the same profile: 6 cm high and 5 cm deep. The 24 cm version sits well above a painting; the 42 cm sets off a shelf or a desk. Both are sized for small rooms of 3 to 5 m².

SPECIFICATIONS

Size

LENGTH	24 or 42 cm
HEIGHT	6 cm
DEPTH	5 cm
SUGGESTED ROOM	3 to 5 m²

Light

SOURCE	Integrated LED, supplied (a single source)
DIRECTION	Downwards, from beneath the stone
VOLTAGE	90–260 V

Materials and fitting

AT HOME

IN DETAIL

The light

An integrated LED, included, sits under the stone, so no bulb is on show.

Materials

It is natural travertine, solid through its whole depth. Each block has its own colour and veins, never quite those of the next, and yours will not be an exact copy of the photos.

Fitting

It fixes to the wall and runs on mains power, 90–260 V; an electrician can fit it if you prefer. At 5 cm deep it sits almost flush with the wall. For indoor use.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
