

Painswick

Natural Stone Ring Wall Light

Painswick is a round wall light in natural stone, for a dining room, a study or a library wall. Its soft light comes from a frosted glass globe ringed by the stone.

SIZES AND FINISHES

It comes in one size, with the ring in deep red marble, white jade, travertine, coral red, deep green, classic marble or amethyst marble, and the paler stones keep it quiet while the deeper ones make it the point of colour in a dining room.

SPECIFICATIONS

Size

DIAMETER	20 cm
PROJECTION	13 cm

Light

CAP	G9, one bulb
BULB	LED, supplied
VOLTAGE	110–240 V

AT HOME

IN DETAIL

The light

It takes a G9 bulb, and an LED bulb is included. The frosted globe keeps the bare bulb out of sight.

Materials

Depending on the version, the ring is marble, white jade or travertine. Its veining is its own, so no two lights are identical, and none is an exact match for the photograph.

Fitting

It fixes to the wall and runs on 110-240 V; an electrician can fit it for you if you prefer. Rated IP20, it is for dry rooms only and not for bathroom zones.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
