IN DETAIL

The light

It arrives with its E27 bulb in warm white (3,000 K), and should you ever change it, the lampholder handles up to 60 W.

Materials

The ribbed ceramic shade is painted by hand, then finished with a few brass touches; it hangs from a twisted cord sheathed in fabric.

Fitting

Rye connects to the ceiling light point, under a 12 cm ceiling rose; an electrician can do this for you if you prefer. The flex adjusts up to 180 cm. It is designed for dry indoor rooms (IP20).

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
