

Whitby

Small Retro Flush Ceiling Light in Tinted Glass

Whitby is a small flat ceiling light, Ø 20 cm by 6 cm deep, to picture in a utility room, a small kitchen or a study. Its tinted glass, amber or smoked, and its painted band give it a retro style inspired by the 1970s.

SIZES AND FINISHES

It comes in one size and two colourways: the red version pairs with amber glass, the anthracite version with smoked glass.

SPECIFICATIONS

AT HOME

IN DETAIL

The light

Its 8 W LED is already in place on delivery, and it does not work with a dimmer. You never need to touch the fitting to alter its colour: the wall switch does it, taking it from warm to neutral, then cool.

Materials

At the top sits a painted metal band; below it, the tinted glass swells into a dome, and an opal acrylic disc at the very bottom spreads the LED's light.

Fitting

It connects to the ceiling point on 230 V mains; an electrician can do this for you if you prefer. IP20: dry rooms indoors.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
