

CEILING LIGHT

Bakewell

Walnut-Effect LED Flush Ceiling Light

Bakewell is a flat ceiling light in a walnut tone, for an entrance hall, a study or a dining room. Beneath its frame, a broad translucent white disc lets a warm light through.

SIZES AND FINISHES

Three diameters at the same price: 30, 40 or 50 cm. The largest gives the most light; choose it for a large room. The 30 or 40 cm will do in an entrance hall or a study.

SPECIFICATIONS

Size

DIAMETERS	30, 40 or 50 cm, same price
MOUNTING	flush to the ceiling, wiring hidden

Light

SOURCE	integrated LED module
OUTPUT	from 18 W (1,800 lm) to 36 W (3,600 lm) by diameter
COLOUR TEMPERATURE	3000 K
TONE	warm
LIFESPAN	around 50,000 h

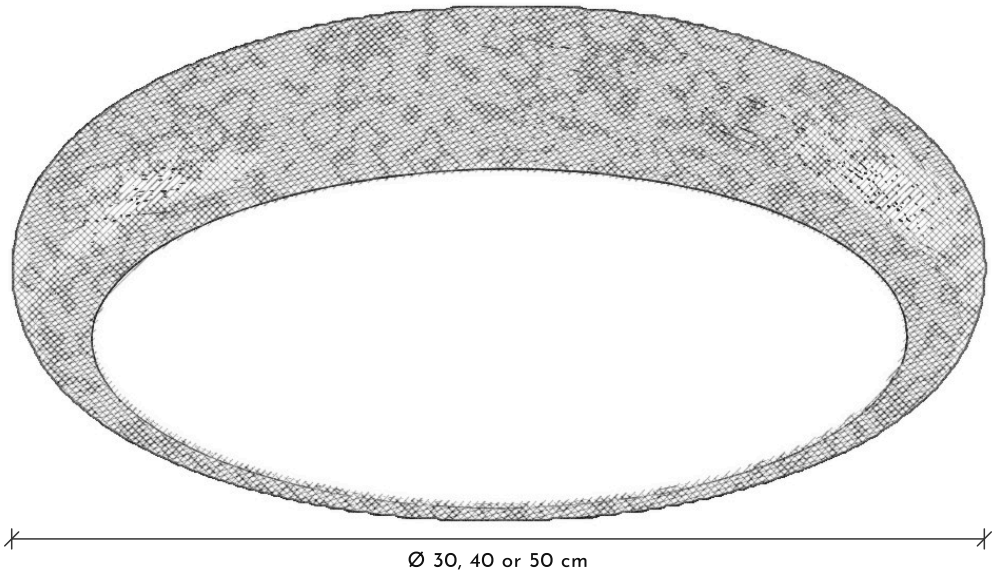

Materials and fitting

STRUCTURE	metal (high density)
LOOK	walnut effect, not real wood

IN DETAIL

The light

The LED module is fully integrated, in warm white 3,000 K, and rated for around 50,000 hours. Depending on size, output ranges from 18 W (1,800 lumens) to 36 W (3,600 lumens).

Materials

The frame is dense metal; its surface imitates walnut, raised grain included, but it is not solid wood. The diffuser is translucent white acrylic.

Fitting

Bakewell fits flush to the ceiling with concealed wiring and connects to the existing light point; an electrician can do this for you if you prefer.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
