

WALL LIGHT

Beverley

Round Backlit Marble Wall Light

A round wall light in natural marble, marked in the middle by a small metal dome, for a living-room or dining-room wall. The disc is lit from behind.

SIZES AND FINISHES

Two diameters, 20 or 25 cm, for a room of roughly 5 to 10 m². The 20 cm stays low-key; the 25 cm can be seen from further away, on a large living-room wall. For the dome, pick gold or silver to match the other metals in the room: handles, frames, light fittings.

SPECIFICATIONS

Size

DISC DIAMETER	20 or 25 cm
DEPTH	about 8.5 cm

Light

SOURCE	LED, supplied
LIGHT POINTS	1
EFFECT	lit from behind the disc

IN DETAIL

The light

The light source is an LED, included, housed behind the disc; there is just one light point.

Materials

The marble is natural: its veining changes from one disc to the next, so your light will differ a little from the photos. In the middle, the small dome is metal, in a gold or silver finish.

Fitting

It fixes to the wall and runs on mains power, 110–220 V; an electrician can fit it if you prefer. At around 8.5 cm deep, it stays close to the wall. For indoor use.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
