

WALL LIGHT

Bibury

Fluted Glass Globe Wall Light

A 15 cm globe of ribbed glass at the tip of a gold arm that curves round: a wall light for an entrance hall, a landing or a study. Its light depends on the glass you choose, from seven colours.

SIZES AND FINISHES

One size, seven glasses: amber, coffee, smoke grey, red, rose red, blue or clear. For everyday light, clear gives the brightest result; the tinted glasses lend themselves more to accent lighting.

SPECIFICATIONS

Size

WIDTH	22.7 cm
GLOBE	Ø 15 cm
WALL PLATE	Ø 8 cm

Light

LAMP CAP	E14
BULB	LED, in the box
SPREAD	all round the globe
DIMMING	no

IN DETAIL

The light

It takes an E14 LED bulb, included, which shines in every direction. It cannot be dimmed: you switch it on and off at the wall switch.

Materials

The arm is iron with a gold finish and the globe is fluted glass. The arm stays gold whichever of the seven glass colours you choose.

Fitting

It is hardwired, 90–260 V, and controlled from the wall switch; an electrician can fit it for you if you prefer.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
