

WALL LIGHT

Buxton

Backlit Natural Alabaster Wall Light

A wall light in natural alabaster, made of 1 to 9 rough-edged plates depending on the height you choose, for a living-room, dining-room or study wall. Its warm white LEDs are hidden behind the stone.

SIZES AND FINISHES

Six versions by number of plates: 1 (18 cm tall), 2 (30 cm), 3 (40 cm), 5 (46 cm), 7 (64 cm) or 9 (78 cm). The width stays at 13 cm. One to three plates are enough above a desk; seven or nine need a tall wall, such as a living-room wall.

SPECIFICATIONS

Size

HEIGHT BY NUMBER OF ALABASTER PIECES	1: 18 cm · 2: 30 cm · 3: 40 cm · 5: 46 cm · 7: 64 cm · 9: 78 cm

IN DETAIL

The light

It comes with its warm white LEDs already fitted at the back. The wattage depends on the version, between 7 and 36 W. It is not dimmable.

Materials

Because alabaster is a natural material, no two plates are quite alike, so yours will inevitably differ a little from the photographs. The fixings are metal with a brass finish.

Fitting

Once fixed, it projects 9 cm from the wall. It connects to an existing wall light point on UK 230 V mains; an electrician can do this for you if you prefer. Dry indoor rooms only.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
