

PENDANT LIGHT

Castleton

Alabaster Disc Spiral Chandelier

Alabaster discs spiralling around a gold frame: an LED chandelier that looks right over a large table or in the middle of a bedroom.

SIZES AND FINISHES

The chandelier has 1, 3, 7, 9, 12, 15, 18, 21, 24 or 27 discs. The more discs, the wider and longer it gets: from 20 cm across with one up to 70 cm with 27, and a drop of up to 4 m on the biggest version. Measure your ceiling height before choosing the number of discs.

SPECIFICATIONS

Size

NUMBER OF DISCS	1, 3, 7, 9, 12, 15, 18, 21, 24 or 27
EACH DISC	Ø 20 cm
OVERALL WIDTH	from Ø 20 cm (1 disc) to Ø 70 cm (27 discs)
DROP	150–400 cm maximum by version (4 m for 27 discs); adjustable and can be shortened when fitted

Light

IN DETAIL

The light

Built-in LED strips, supplied with the chandelier, provide the light. The chandelier comes in cool white or in warm white, or with a remote control, the only version that lets you dim it. Power runs from 6 W up to 182 W, rising with the disc count.

Materials

Each disc, 20 cm across, is natural alabaster, and no two share the same veining, so your chandelier will be one of a kind. The frame is brushed gold metal.

Fitting

The drop is adjustable, up to 150 cm on the smallest versions and up to 400 cm on the largest, and the cable can be shortened on site. The chandelier arrives for assembly: an electrician can assemble and connect it for you if you prefer. Rated IP20, it is for dry rooms only.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
