

CEILING LIGHT

Grasmere

White Cloud LED Flush Ceiling Light

Grasmere is a white metal ceiling light with a cloud-shaped outline, sitting flat against the ceiling. In a kitchen, a study or an entrance hall, it lights the whole room evenly, without glare.

SIZES AND FINISHES

Four widths: 50, 60, 90 or 110 cm. To picture it before you order, cut a piece of card to the width you have in mind and hold it up to the ceiling: no surprises on arrival. As for the light, warm white gives a softer mood, cool white a crisper light that helps when working, and with the three-mode version the wall switch moves from one to the other.

SPECIFICATIONS

Size

WIDTH	50, 60, 90 or 110 cm depending on the size chosen

AT HOME

IN DETAIL

The light

The SMD LEDs are built in and included. There are four versions: warm white, cool white, three colour modes you change with the wall switch, or a dimmable version.

Materials

The body is metal finished in white; its rounded, irregular edges trace a cloud.

Fitting

It fixes flat to the ceiling and runs on 110–240 V; an electrician can fit it if you prefer. For dry indoor rooms (IP20).

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
