

WALL LIGHT

Hebden

Industrial Iron Wall Light with Globe Bulb

Hebden is an iron wall light with an industrial feel, for a study or a workshop-style kitchen. From the round backplate, a thin iron stem rises in a single curve and carries a globe bulb at its tip, with no shade.

FINISHES

It comes in gold, two-tone black and gold, or all black. To decide, look at the other metals in the room: door handles, frames, furniture legs.

SPECIFICATIONS

Size

HEIGHT	28 cm
PROJECTION	19 cm
ARM SPAN	16.5 cm
WALL PLATE	Ø 12 cm

Light

BULB	E27 LED globe, supplied, shining in every direction
SWITCHING	From the wall switch
DIMMING	No

IN THE BOX

Hebden wall light, E27 globe bulb, mounting plate, screws for the wall.

DIMENSIONS

FRONT · BACKPLATE Ø 12 CM · PROJECTION 19 CM

Dimensions in cm · drawing not to scale

AT HOME

IN DETAIL

The light

The E27 LED globe bulb is included; it shines in every direction, onto the wall and into the room. This wall light is not dimmable: it works from your wall switch.

Materials

It is all iron: a round 12 cm backplate and an arm that curves over 16.5 cm, for a total projection of 19 cm.

Fitting

Hebden is hardwired to the existing wall supply (90 to 260 V) and controlled by a switch; an electrician can do this for you if you prefer. For dry indoor use only (IP20): not for bathrooms or outdoors.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
