

CEILING LIGHT

Henley

Adjustable Three-Spot Fluted Wood Ceiling Light

Henley is an 80 cm ceiling light carrying three fluted wood spotlights, each one angled on its own. In a study, one spot can aim at the desk, another at the bookshelves, the third at a picture.

SIZES AND FINISHES

One length, three finishes: dark walnut, light walnut or black. Light walnut sits well with white walls or pale wood; dark walnut answers old floorboards and antique furniture; black draws a sharper line across the ceiling.

SPECIFICATIONS

Size

LENGTH	80 cm
HEIGHT	22.5 cm
HEADS	Three, each one adjustable

AT HOME

IN DETAIL

The light

Each head takes a GU10 bulb of up to 10 W, and all three bulbs are included. The heads tilt independently of one another. To dim it, you need dimmable GU10 bulbs and a dimmer switch.

Materials

The spots are solid fluted wood, mounted on a metal base.

Fitting

It fixes to the ceiling and connects to your existing light point; an electrician can fit it if you prefer. It works on a flat ceiling or a sloping one, which makes it a real answer in a loft, for a bedroom under the eaves for instance. For indoor use.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
