

WALL LIGHT

Kersey

Opal Glass Globe Wall Light, Black or Gold

Kersey is an opal glass globe wall light for the wall of a landing or a study. When it is on, it lights the wall both upwards and downwards, gently.

FINISHES

Two finishes at the same price: matt black or gold. Gold picks up a brass frame or brass handles already in the room; matt black goes with black switches or other black light fittings.

SPECIFICATIONS

Size

WIDTH	12 cm
HEIGHT	37 cm
SUGGESTED ROOM	5 to 10 m²

Light

BULB	G9, supplied
WATTAGE	7 W maximum
SPREAD	Upwards and downwards, across the wall

AT HOME

IN DETAIL

The light

The globe takes a G9 bulb of up to 7 W, supplied with the light. The white opal glass spreads its glow and keeps the bulb out of sight. Kersey is at its best in a room of 5 to 10 m².

Materials

The metal frame is shaped like a drop, with the opal globe sitting inside it.

Fitting

Kersey mounts on the wall; an electrician can do this for you if you prefer. It runs on 90 to 260 V.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
