

WALL LIGHT

Keswick

Finned Aluminium Disc LED Wall Light

Keswick is a 15 cm mood light for the wall of a dining room or a study. Once it is on, it traces a star of rays on the wall around the disc.

SIZES AND FINISHES

There is a single size; you choose between black, gold and rose gold, each one tinting the rays slightly.

SPECIFICATIONS

Size

DIAMETER	15 cm
PROJECTION	8 cm

Light

SOURCE	Built-in CREE LED, 3 W, supplied
EFFECT	A star of rays on the wall, around the disc
SWITCHING	Wall switch, not dimmable
VOLTAGE	100–240 V AC

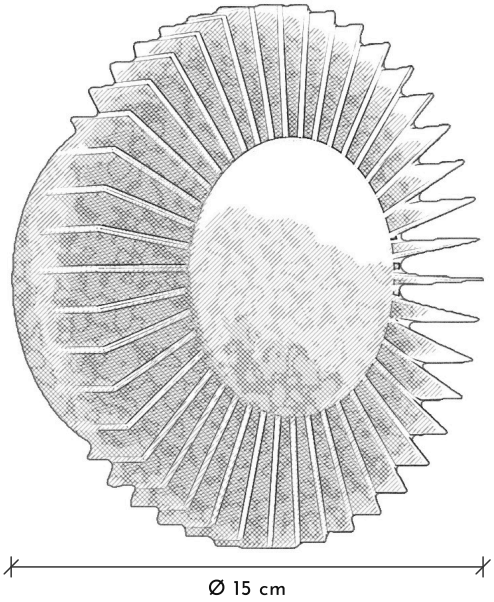

Materials and fitting

MATERIAL	Aluminium throughout, dark centre
FINISHES	Black, gold or rose gold; each finish tints the rays differently
CONNECTION	Hardwired, on the wall; an electrician can do it if you prefer
USE	Dry indoor rooms

IN THE BOX

Keswick, integrated LED, mounting plate, screws.

DIMENSIONS

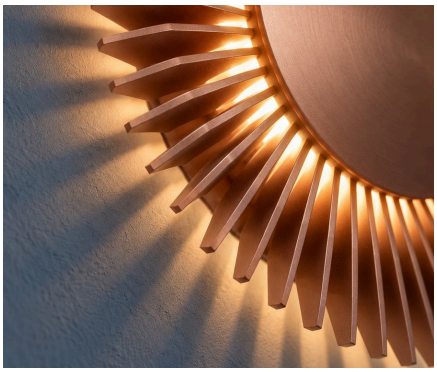

OBSIDIAN, GOLD OR ROSE GOLD · D 8 CM

Dimensions in cm · drawing not to scale

AT HOME

IN DETAIL

The light

The source is a 3 W LED made by CREE, built in and supplied, set under the dark heart of the disc; its light escapes between the fins and forms the rays. A standard wall switch turns it on and off; it is not dimmable.

Materials

Everything is aluminium: the 15 cm disc and the thin fins set all the way round it.

Fitting

It stands only 8 cm off the wall. It connects to an existing wall light point (AC 100–240 V, so fine on UK 230 V mains); an electrician can do this for you if you prefer. Dry indoor rooms only.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
