

WALL LIGHT

Kirkby

Fluted Up and Down Wall Light in Resin

Kirkby is a small sculpted resin wall light with vertical fluting that lights the wall both upwards and downwards. In a dining room or a study, it draws two beams on the wall.

SIZES AND FINISHES

One compact size, intended for a room of roughly 5 to 10 m². White melts into a pale wall. Terracotta, grey or green, on the other hand, bring a touch of colour to it.

SPECIFICATIONS

Size

WIDTH	14 cm
HEIGHT	16.5 cm
DEPTH	8 cm
SUGGESTED ROOM	5 to 10 m²

Light

BULB	G9, supplied
SPREAD	Upwards and downwards from a single source

Dimensions in cm · drawing not to scale

AT HOME

IN DETAIL

The light

A single G9 bulb, included, feeds both beams: one goes up, the other down.

Materials

The resin is sculpted with vertical fluting and comes in four colours.

Fitting

It fixes to the wall and runs on mains power, 90–260 V; an electrician can fit it if you prefer. For indoor use.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
