IN DETAIL

The light

An E27 bulb is supplied; the holder takes up to 60 W. Fitted with a dimmable bulb, it can be run from a dimmer switch. It covers an area of about 5 to 10 m².

Materials

Glazed ceramic shade with a very glossy finish. It hangs from a twisted flex with a brass detail, below a 12 cm ceiling rose.

Fitting

The flex adjusts up to 200 cm, so you can set the shade at the height that suits the spot. It connects to your existing ceiling light point; an electrician can do this for you if you prefer. Dry indoor rooms only (IP20).

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
