

WALL LIGHT

Orford

Glass Globe Wall Light on a Long Stem

In a sitting room beside an armchair, or on a study wall, Orford holds a glass globe at the tip of a slender iron stem, in a clean Nordic style.

SIZES AND FINISHES

One size, 60 cm tall and 18 cm wide, and six combinations of the two stems and three glasses. Silver with clear stays light and fresh; gold with amber suits a sitting room full of wood tones.

AT HOME

IN DETAIL

The light

An omnidirectional E14 LED bulb is supplied. Clear glass lets the most light through; amber and smoke grey filter it more. It works from the wall switch and cannot be dimmed.

Materials

The iron stem is finished in silver or gold. The globe, in smooth glass 15 cm across, comes in amber, smoke grey or clear. On the wall, a round plate 12 cm across.

Fitting

It connects to an existing wall light point (AC 90–260 V); an electrician can do this for you if you prefer. Dry rooms only (IP20): not suitable for a bathroom.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
