

CEILING LIGHT

Pickering

Small Black Marble Ceiling Light

Pickering is a small ceiling light in real black marble, shaped as a short cylinder 12 cm across. Picture it in a dressing room or a small library: its light covers around 5 to 10 m².

WHERE TO PUT IT

At 13 cm tall overall, it suits the low ceilings of older houses, landings and corridors, where several can be lined up. Against a white ceiling, the black marble stands out clearly.

SPECIFICATIONS

Size

DIAMETER	12 cm
OVERALL HEIGHT	13 cm: 10 cm of marble on a 3 cm base
AREA LIT	about 5 to 10 m²

Light

IN THE BOX

Pickering ceiling light, marble cylinder and metal base, LED bulb.

DIMENSIONS

MARBLE H 10 CM · BASE H 3 CM

Dimensions in cm · drawing not to scale

AT HOME

IN DETAIL

The light

An LED bulb is supplied. The E26/E27 socket then takes any standard E27 bulb.

Materials

The marble is real and black, with natural veining that changes from one piece to the next, so yours will have its own pattern. At the top, a 3 cm base in pearl-black metal meets the ceiling.

Fitting

It fixes to the ceiling and connects to your existing ceiling light point; an electrician can do this for you if you prefer. Indoor use only (IP20).

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
