

WALL LIGHT

Skipton

Linear LED Wall Light Bar, Black or Gold

Above a sideboard, a desk or along a bookcase, Skipton fixes to the wall as a very slim bar. Switched on, it gives the same brightness along its whole length, with no brighter patch.

SIZES AND FINISHES

In matt black, seven lengths run from 60 cm to 2 m: 60, 80, 100 and 120 cm, then 150, 180 and 200 cm. In gold there are just three: 60, 80 and 100 cm. To choose, measure the piece of furniture it will sit above, whether a desk, a sideboard or a bookcase, and take a length slightly shorter than it.

IN DETAIL

The light

The LEDs are set into the bar. It comes in four versions: warm, neutral or cool white, or a dimmable version to bring the light down in the evening.

Materials

Its very slim metal profile comes in two colours: black with a matt finish, or gold.

Fitting

It is hardwired to the mains; an electrician can do this for you if you prefer. Rated IP20, it is for indoor use only.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
