

CEILING LIGHT

Tetbury

Flush Travertine Ceiling Light, Integrated LED

Tetbury is a disc of travertine that fixes against the ceiling, for a bedroom, a study or a kitchen. Its warm white light comes straight from the ceiling.

SIZES AND FINISHES

Three diameters: 38, 48 and 58 cm. If it replaces an old ceiling light, measure the mark the old one leaves on the paint: a slightly wider disc will hide it.

SPECIFICATIONS

Size

DIAMETERS	38 / 48 / 58 cm
PROFILE	ultra-flat, fixed flush to the ceiling

Light

SOURCE	LED in a closed module, which is not swapped out
COLOUR	warm white, 3,000 K
LIFESPAN	about 50,000 hours

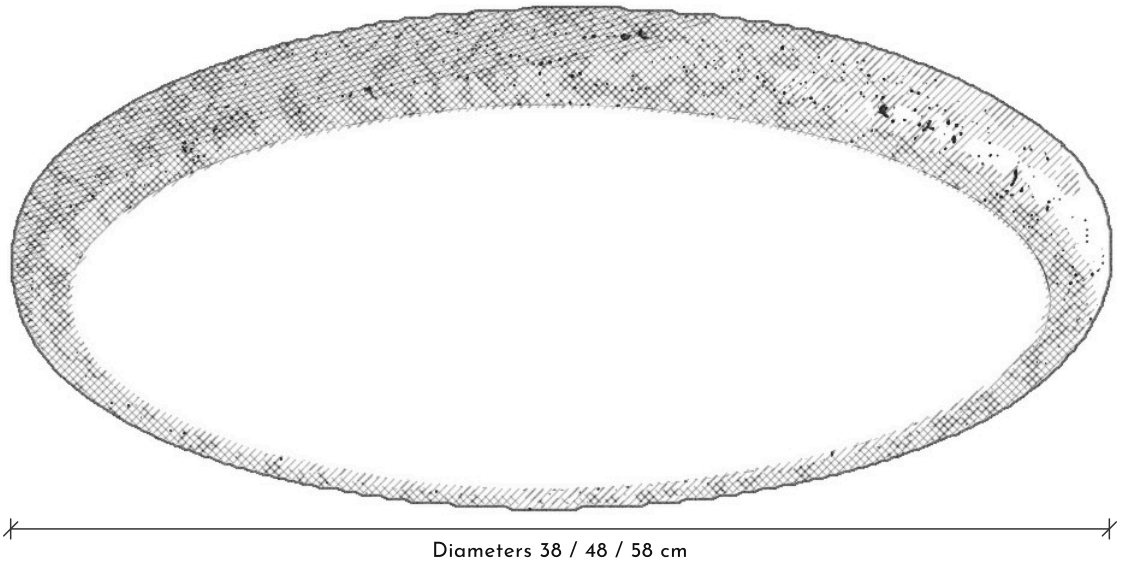

Materials and fitting

AT HOME

IN DETAIL

The light

The LED module comes fitted and sealed, and it cannot be replaced. It gives 3000 K warm white light with a stated life of around 50,000 hours.

Materials

The disc is genuine travertine. Like any stone, it has its own markings, in a range of creams, and yours will not look quite like the one in the photos.

Fitting

It sits directly against the ceiling with no wires left showing, in a very slim profile. An electrician can connect it for you if you prefer.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
