

CEILING LIGHT

Thirsk

Triangular Flush Ceiling Light, Integrated LED

Thirsk is a white ceiling light in the shape of a flat triangle, for a study, a kitchen or a playroom. When it is on, the light spreads across the whole triangle.

SIZES AND FINISHES

Two widths, 40 or 50 cm; for the same version, the 50 cm gives about a quarter more light. Choose three colours if the room is used both for relaxing and for working, dimmable if you like to bring the light down in the evening, or warm white for simple, gentle light.

SPECIFICATIONS

Size

WIDTH	40 or 50 cm
MOUNTING	flat against the ceiling

Light

LED	SMD type, already in place
EFFECT	light spread across the whole triangle
VERSIONS	three-tone, dimmable or warm white
OUTPUT, 40 CM MODEL	about 3,000 lm (single tone) or 6,000 lm (three-tone)
OUTPUT, 50 CM MODEL	about 3,800 lm (single tone) or 7,600 lm (three-tone)

IN DETAIL

The light

The LED (SMD) comes built in. It is available in three versions, chosen when you order: three shades of white (from the warmest to the coolest), dimmable, or warm white only. Rated output is around 3,000 lumens for the 40 cm and 3,800 lumens for the 50 cm in a single colour, and roughly 6,000 and 7,600 lumens for the three-colour version.

Materials

The body is metal, finished in white, and the diffuser acrylic.

Fitting

Thirsk is fixed directly to the ceiling and connects to the existing light point (110 to 240 V); an electrician can do this for you if you prefer. It is designed for dry rooms (IP20).

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
