

PENDANT LIGHT

Thornbury

Firefly Branch Chandelier in Gold or Black, 30 to 63 Lights

Thornbury is a large chandelier of metal branches that divide like the boughs of a tree. At the tip of each twig sits a small light under a frosted acrylic petal: switched on, it looks like a swarm of fireflies settled above the table. It comes in gold or black, and in three spans, from 80 to 105 cm.

SIZES AND FINISHES

Three spans. Over a table, choose a span 20 to 30 cm narrower than the tabletop: a 110 cm table calls for the 80 cm. As the central light of a sitting room: up to 20 m², the 80 cm; from 20 to 35 m², the 95 cm; beyond that, the 105 cm. Gold warms a room with dark walls and old wood; black draws the branches against a pale ceiling.

SPECIFICATIONS

Size

SPANS	80, 95 or 105 cm
POINTS OF LIGHT	80 cm: 30 · 95 cm: 45 · 105 cm: 63
HEIGHT OF THE BRANCHES	about 30 cm
ROD	rigid, about 40 cm
OVER A TABLE	choose a span 20 to 30 cm narrower than the tabletop
SUGGESTED ROOM SIZE	up to 20 m²: 80 cm · 20–35 m²: 95 cm · over 35 m²: 105 cm

Light

LIGHT SOURCE	LED, warm white
DIFFUSERS	frosted acrylic petals
SWITCHING	an ordinary wall switch

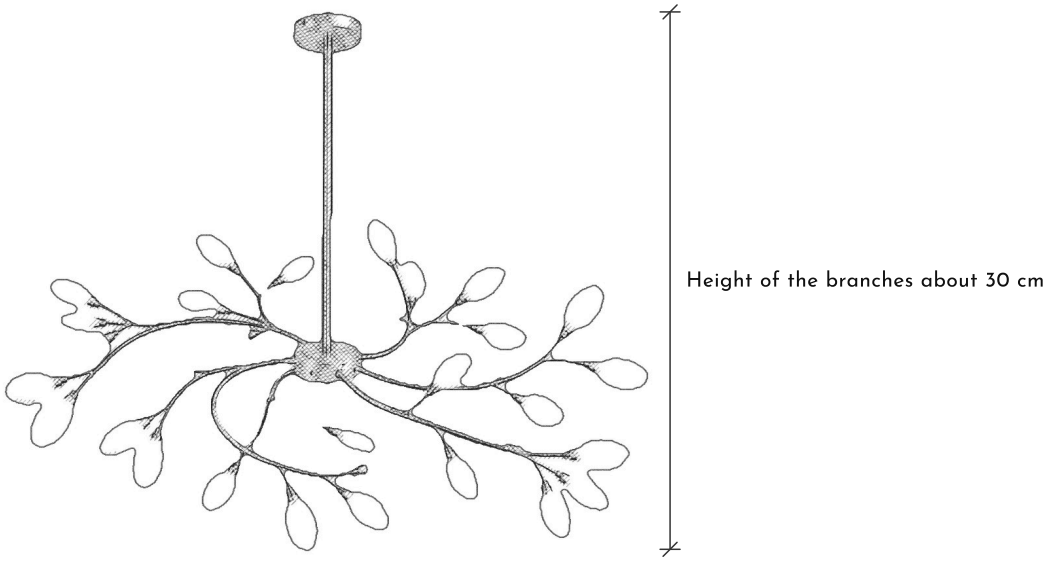

Materials and fitting

BRANCHES, ROD AND CEILING PLATE	metal, gold or black finish
USE	dry rooms indoors
INSTALLATION	a little assembly, then wire to the ceiling; an electrician can do it if you prefer

IN THE BOX

Thornbury chandelier, branches and parts ready for assembly.

DIMENSIONS

Dimensions in cm · drawing not to scale

IN DETAIL

The light

Depending on the size, 30, 45 or 63 warm white LED points of light. Many small sources rather than one strong one: the light is soft and enveloping, never glaring, and the shadows stay gentle. It works from a standard wall switch.

Materials

The branches and the ceiling plate are metal, finished in gold or black. The petals are frosted acrylic, lighter than glass.

Fitting

It fixes to the ceiling with a ceiling plate and a rigid rod, then connects to your ceiling light point; it needs a little assembly when it arrives, and an electrician can fit it if you prefer. Over a table, keep 75 to 90 cm between the tabletop and the lowest petals; in a sitting room or hallway, leave at least 1.95 m of headroom beneath it. For dry indoor rooms only.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
