

WALL LIGHT

Winchcombe

Swing Arm Bedside Reading Wall Light

Winchcombe is an industrial-style reading light on a jointed arm that extends, then folds back against the wall. Picture it above an armchair or at the end of a sofa; its light points downwards.

SIZES AND FINISHES

Two shades: the cone (21.5 cm high, Ø 11.5 cm), whose arm reaches up to 70 cm, and the slimmer cylinder (11 cm high, Ø 6 cm), which reaches up to 58 cm. To choose, measure from the wall to where you hold your book: up to 58 cm, the cylinder is enough; any further, say for an armchair set a little away from the wall, take the cone.

SPECIFICATIONS

Size

CONE SHADE	H 21.5 × 11.5 cm, arm up to 70 cm
CYLINDER SHADE	H 11 × 6 cm, arm up to 58 cm
WALL PLATE	12 cm

Light

BULB	GU10 LED, supplied, warm or cool white depending on the version
BEAM	concentrated downwards
CONTROL	wall switch, not dimmable

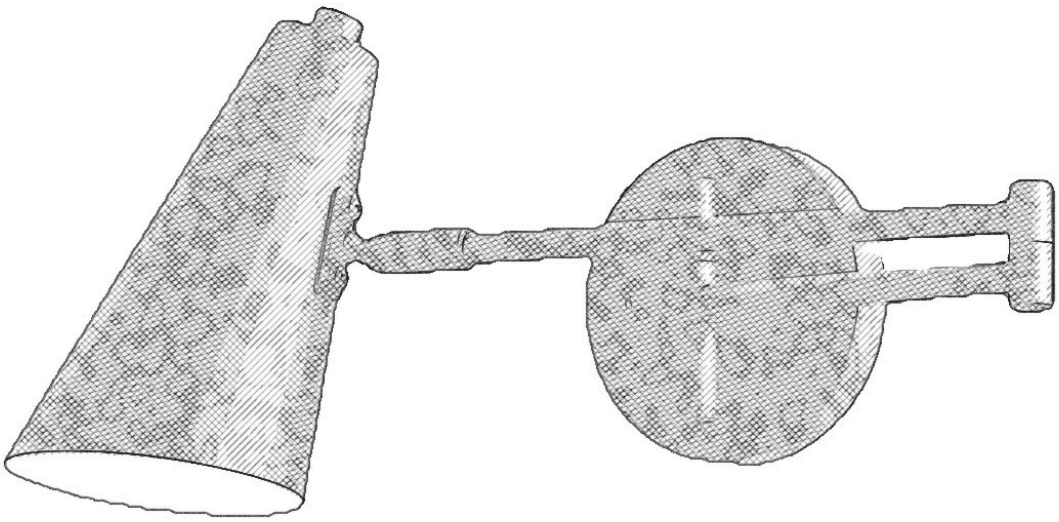

Materials and fitting

MATERIALS	iron and aluminium alloy
FINISHES	matt black or satin gold
ADJUSTMENT	turns 180° at the wall, arm folds to 90°, elbow 180°, shade swivels 350°
FITTING	hardwired, AC 90–260 V; an electrician can do it if you prefer
USE	indoors

IN THE BOX

Winchcombe wall light, jointed arm, shade, GU10 LED bulb.

DIMENSIONS

Dimensions in cm · drawing not to scale

AT HOME

IN DETAIL

The light

A GU10 LED bulb is included, in warm or cool white depending on the version you choose. Four adjustments: the mount turns 180° on the wall, the arm folds to 90°, the elbow turns 180° and the shade 350°. It works from the wall switch and is not dimmable.

Materials

The arm and the shade are both metal, an alloy of iron and aluminium, with a choice of finish between matt black and satin gold.

Fitting

It fixes to the wall on a 12 cm backplate and is hardwired to a wall light point (90–260 V); an electrician can fit it if you prefer. For indoor use.

Indicative measurements: stone, blown glass and wood are natural materials, so no two lights are quite the same.
